

Piermont Marsh Planning: Fact-Finding

Meeting 1: What do we know about Piermont Marsh, past and present?

September 30, 6:00pm – 8:30pm

Piermont Village Hall

478 Piermont Avenue, Piermont, NY 10968

Please join the NYS Department of Environmental Conservation and NYS Parks in the first of a series of public fact-finding meetings to inform the development of a long-term management plan for Piermont Marsh. The topics addressed at these meetings are based on the questions and concerns that have been raised by members of the community and other stakeholders.

At this first meeting, local scientists will give presentations about what they know about the history of Piermont Marsh, the present plant composition, and other organisms that live in the marsh, followed by a panel discussion. The information presented will help to inform objectives for management of the marsh. There will also be an opportunity for the public to ask the speakers clarifying questions and to submit comments.

Please join us at 5:45 pm for refreshments, and the program will begin at 6:00 pm.

If you are unable to attend but would like to receive the meeting summary or submit comments, please contact Lisa Graichen, intern with the NYSDEC, at Lisa.Graichen@dec.ny.gov.
